Regroup

FOR EDUCATION

Improve Safety and Communication for Higher Ed, K-12, Trade and Vocational Schools

Designed With Schools In Mind

Regroup offers user-friendly communication solutions specifically designed for educational institutions. Founded at Stanford University in 2006, our higher education roots provide us with a deep understanding of the daily communication challenges schools face, as well as the critical needs during emergencies like severe weather, natural disasters, or violent events.

Powerful During Emergencies, Useful Every Day

Keep Faculty & Staff Informed: Enable administrators at various levels to deliver important information to their teams quickly and conveniently with Regroup, and on-the-go with the Regroup Mobile App.

Communicate Better with Students & Parents: Whether it's weather-related closures, schedule changes, special events, or general updates, Regroup enables you to deliver messages to recipients' preferred channels (text, phone call, or email) in just a few clicks

Improve Campus Safety and Security: Regroup enhances campus safety by ensuring emergency alerts, lockdown notifications, and evacuation instructions are delivered at rapid speeds to every device.

Reduce Absenteeism: Reduce absences by sending attendance reminders and missing student notifications directly to students or parents.

Automate Routine Updates: Regroup connects with existing SIS and LMS systems to automate notifications about assignments, grades, and course updates, streamlining communication between teachers, students, and parents.

Automated Weather Alerts: Receive and send automatic alerts from NOAA and NWS for severe weather-related emergencies that impact your school or surrounding community.

Emergency Help Requests: With a single tap in the Regroup Mobile App, users can send Help Requests that instantly notify security teams across multiple channels. The system also shares the user's geolocation, helping responders quickly pinpoint where help is needed.

Key Features for Educational Institutions

Colleges, universities, and school districts across the country rely on Regroup to enhance safety and communication in their communities. Here are some of the most popular features among our education clients:

Send and Receive from Anywhere: Reach your audience via email, text messages (SMS), the Regroup mobile app, desktop notifications, voice calls, digital signs, PA systems, websites, social media, and more.

Easy Enrollment: Enrolling your school community is easy with text-to-join, and scan-to-join QR code options that can be easily promoted through email, signage, and more.

Education System Integration: Easily manage and integrate contact data with leading Studen Information Systems (SIS) and Learning Management Systems (LMS).

Unlimited Groups and Admin Access: Customize your account with unlimited groups, admins, and ready-to-go templates for fast, efficient communications.

TipSafe Anonymous Reporting: Enhance campus safety and enable students and faculty to confidentially report safety concerns and suspicious activity via text message.

Geofence Messages: Target alerts by location to help people respond correctly based on their location, and whether they are entering or exiting a designated area.

Multi-Language Support: Notifications can be automatically translated into over 80 languages based on the recipient's device settings, ensuring effective communication with all members of your school community.

Regroup Mobile App: Enable administrators to reach their recipients from anywhere with the free Regroup mobile app that puts messaging power at their fingertips.

Unlimited, 24x7 Customer Support: Regroup becomes your dedicated partner in school safety. We offer free training, and our team is available anytime you need us for help with your notification system.
