

# THE *SMART* SOLUTION FOR SECURITY

Regroup 

The ability to quickly and effectively communicate is vital for the success of your organization. Deliver the tools, even when conventional means are unavailable with Regroup Mass Notification.

One of the most crucial aspects of a successful security force is the ability to communicate quickly, safely and effectively. Lacking the proper tools can hinder even the most well-trained officers from carrying out their jobs properly.

## COMMUNICATION TECHNOLOGY THAT KEEPS UP WITH YOUR DEMANDS

Traditionally speaking, two-way radio communication has been one of the most common practices for security officers. While the technology is constantly advancing, unfortunately, so is the cost to upgrade existing systems. Regroups mobile platform eliminates the need for costly upgrades by harnessing the power of technology you already have in place. Regroup's robust cloud-based platform offers a far more potent solution and puts an end to typical interference issues and dead zones. Plus, it's surprisingly affordable –no matter how large your workforce.

## THE SECURITY SOLUTION THAT DELIVERS

### FOR SECURITY PERSONNEL

- As simple to use as texting
- More discreet than radios
- Smaller footprint than radios
- Quickly and accurately send critical alerts
- Instant Man Down or Panic Button alerts

### FOR ADMINISTRATORS AND SUPERVISORS

- Quick Message templates for accuracy
- Routine messaging and reminders
- Geo-targeted messaging and alerts
- Extensive reporting features
- Effectively communicate and manage local incidents and response

## STAY SAFE AND INFORMED WITH REGROUP

Regroup gives you the power to send important alerts and routine notifications through SMS/text, email, mobile apps, RSS posts, push notifications, voice calls and various other integrated delivery methods.. Additionally, you can easily create unlimited groups, administrators and templates in the system to organize the contacts you need to reach.

For organizations entrusted to protect some of the most valuable assets, Regroup goes above and beyond traditional methods of communicating by providing advanced customization, comprehensive reporting geo-targeted alert technology and two-way communication via our Mobile App.

### **Send Critical Alerts On The Go**

With our partnership with FEMA, Regroup's Mobile App allows officers and managers to send important notifications wherever they are, even when cellular towers are overloaded or power is out.

### **Quick Message Templates**

Set up Quick Message Templates to allow your organizations to get the word out faster and more accurately – especially during critical events.

### **Real-Time, Two-Way Communications**

Harness Regroup's two-way communications to respond to alerts from your officers in the field, deliver details instructions and get critical feedback instantly.

### **Activate Federal Alert Technology**

Activate alerts from NWS, NOAA and IPAWS to automatically trigger advanced warnings to your team in the event of severe weather conditions.

### **Geo-Fencing for Safety**

Use Regroup's Geo-Fencing feature to alert team members in a targeted area. You can also send alerts to those entering or leaving the area, automatically.

### **Routine Communications and Reminders**

Administrators and supervisors can use Regroup to send operational updates, training reminders and more to the entire workforce or specific groups.

### **Comprehensive Reporting**

Regroup's reporting feature delivers extensive insights on message delivery and responding activity. It can help you achieve stronger accountability company-wide.

### **Translate Messages Automatically**

Regroup's Automatic Translation feature delivers your message in the language best suited to your recipient, ensuring clear and concise communication.
