

# PANIC ALERTS

Quickly report safety concerns to the appropriate parties.

## THE CHALLENGE

Organizations need to protect their staff, team members and others by providing an easy way to send panic alerts instantly and reliably from any location or device.

Users of all technical ability need to be able to trigger panic alerts to the right security personnel from anywhere at any time.

## THE SOLUTION

Easy-to-use panic alerts allow custom workflows to be created for reporting incidents by the end user.

Custom workflows allow different panic alerts to appear to different users based on their location and your organization's structure.

## EASY-TO-SETUP AND DEPLOY PANIC ALERTS

### CUSTOM MESSAGES SCENARIOS

Quickly create message templates for various emergency scenarios such as suspicious persons and criminal activity.

### QUICK AND EASY ACTIVATION

Users can quickly access Panic Alerts through a dedicated icon in Regroup Mobile. Sending an alert with two clicks.

### CUSTOM RECIPIENTS

Admins can easily assign panic alert recipients to specific groups and individuals to be sure there is around the clock availability of resources.

### MESSAGE DELIVERY FLEXIBILITY

Panic Alert recipients can set-up multiple methods for delivery including email, text/sms, Regroup Mobile and call.

### GEOLOCATION ENABLED

In addition to delivering specific panic alerts, users that trigger a message automatically share their geolocation so recipients know exactly where help is needed most.
