

# ORGANIZATIONAL SAFETY ENHANCED WITH THREAT INTELLIGENCE

Explore Regroup's Mass Notification and Threat Intelligence Suite for Superior Situational Awareness

Since 2006, Regroup's robust cloud-based notification platform has kept organizations safe, informed, and productive. Our simple yet powerful solution delivers emergency alerts and supports daily operations with a comprehensive range of communication capabilities.

Now, Regroup offers a fully customizable and flexible technology suite for threat intelligence, emergency alerts, and real-time crisis management.

## THREAT INTELLIGENCE AT YOUR FINGERTIPS

### ✓ ACCESS TO 4,000+ FILTERED DATA SOURCES

Regroup's suite aggregates data from news outlets (local, national, and international), police and fire departments, traffic and public transportation agencies, weather reporting services, utility companies, and more.

### ✓ THREAT INTELLIGENCE DASHBOARD

A customizable dashboard allows your team to monitor your preferred data sources based on your organization's asset locations and needs, empowering awareness from hyper-local to global levels.

### ✓ AUTOMATED EMERGENCY ALERT PROFILES

Create pre-configured alert profiles to send notifications automatically to your defined audiences whenever specific events occur, so your audiences can respond rapidly to any situation that demands action. Notifications can also be sent ad-hoc if your team determines action is required in less-critical events.
